# Welcome to Session 1

What is this Session about?

- How bad is the "bad traffic" problem (BTP)?

- Can we characterize the BTP and its sources?

- What are the most important symptoms?

What is this Session about?

- That is, are we dealing with, well,

- If not, how do we attack this space?

Agenda/Panelists

- DNS Issues (20 minutes)
  - Mark Kosters (markk@verisignlabs.com)

- Backbone Operator Issues (20 minutes)
